Tiffany -

Dr. Catherine Phillips, USFWS Field Supervisor for the Panama City FL office returned my phone call this afternoon. She was the first person to be genuinely interested in my perspective and the history of the conflict. We talked for 2 hours.

I sent her all the background and she seems to think that she can learn directly from DOI what exactly the hold-up on FOIA completion is. I told her that I was far more interested in an opportunity to come together as a team than in having that last part of my request fulfilled.

She is going to talk today or tomorrow with Dr. Donald Imm, Superintendent of the USF&WS office in Georgia, as he hasn't returned my call and he is lead signator of the 6 party agreement (1 page 5 May 2016) memo urging members to curtail communications with Torreya Guardians (which is one of the documents you sent me in partial fulfillment of my FOIA.

Dr. Phillips strikes me as a team player who may at last be able to mediate the parties beyond conflict into cooperation.

And do let me know that you received my email this morning titled, FWS-2018-00613 FOIA - reinstate data request Torreya

Thank you,

Connie Barlow
