Good Morning Ms. Barlow,

Attached is your signed 1st partial response letter and documents. As per our conversation, there is still one document that is currently being routed through the proper channels to be sent to the Solicitor's Office for review. Thanks!

Dear Ms. Barlow:

This serves as a partial response to your Freedom of Information Act (FOIA), 5 U.S.C. § 552, request, dated March 27, 2018. In your request, you asked for:

- *Documentation of *Torreya taxifolia* seed production year by year, beginning in 2007*

We have searched our files and at this time, we are releasing a portion of the responsive records. We have located three (3) documents containing sixteen (16) pages that have been deemed releasable in full. The remaining record is undergoing review. Once this review is complete, we will provide you a

response concerning the remaining document.

For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA. See 5 U.S.C. § 552(c). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

If you have any questions, please contact Catherine Phillips, Project Leader, Panama City Ecological Services Field Office at (850) 769-0552 or Catherine_phillips@fws.gov. Thank you for contacting the U.S. Fish and Wildlife Service.

Sincerely yours,

for 
Leopoldo Miranda
Assistant Regional Director
